ERP / POS System – Bug & Enhancement Report (Tree Format)

Prepared By: Business Analyst
Date: 19-April-2026

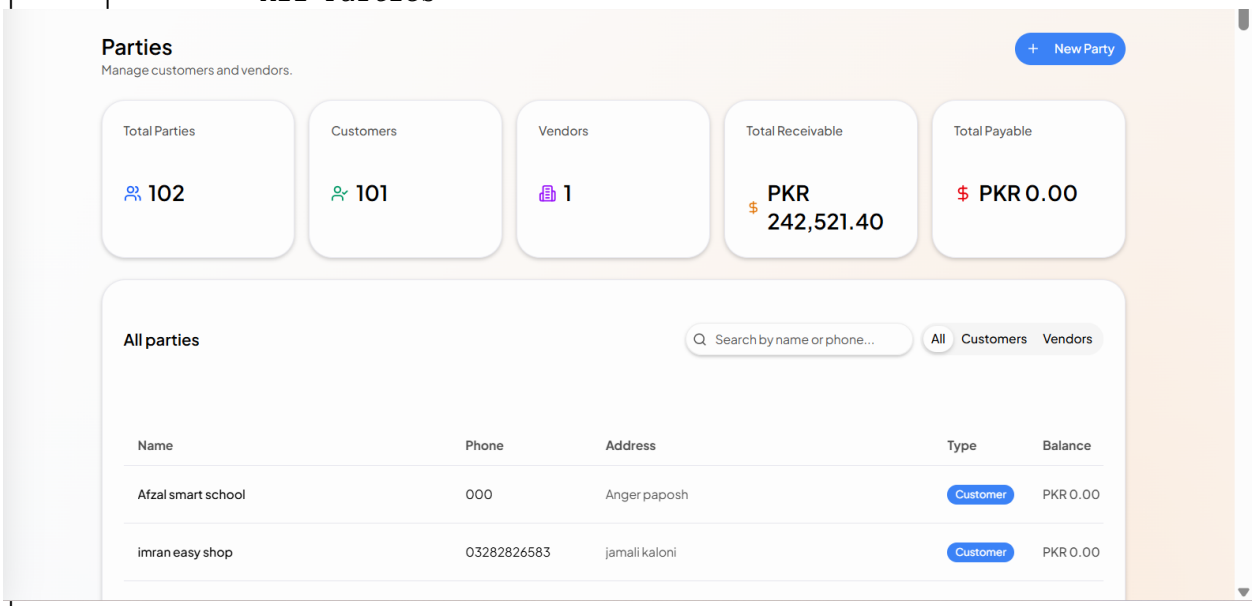
📊 Module: Dashboard

```
Dashboard
├── Add Filter (Time-Based)
│      ├── Daily
│      ├── Weekly
│      ├── Monthly
│      ├── Yearly
│      └── Custom Date Range
│      → Purpose: Analyze performance over time
│
├── Add Sales Insight Filter
│      ├── Top Selling Items
│      └── Least Selling Items
│      → Purpose: Identify product performance
│
├── Add Customer Performance Filter
│      └── Best Customer (Highest Purchase Volume)
│      → Note: Independent from item filters
│
├── Filter UI Structure
│      ├── Dropdown 1: Time Filter
│      └── Dropdown 2: Insights Filter (Top Item / Best Customer)
│
└── Add Graphs
       ├── Line Chart
       ├── Pie Chart
       └── Bar Chart
```

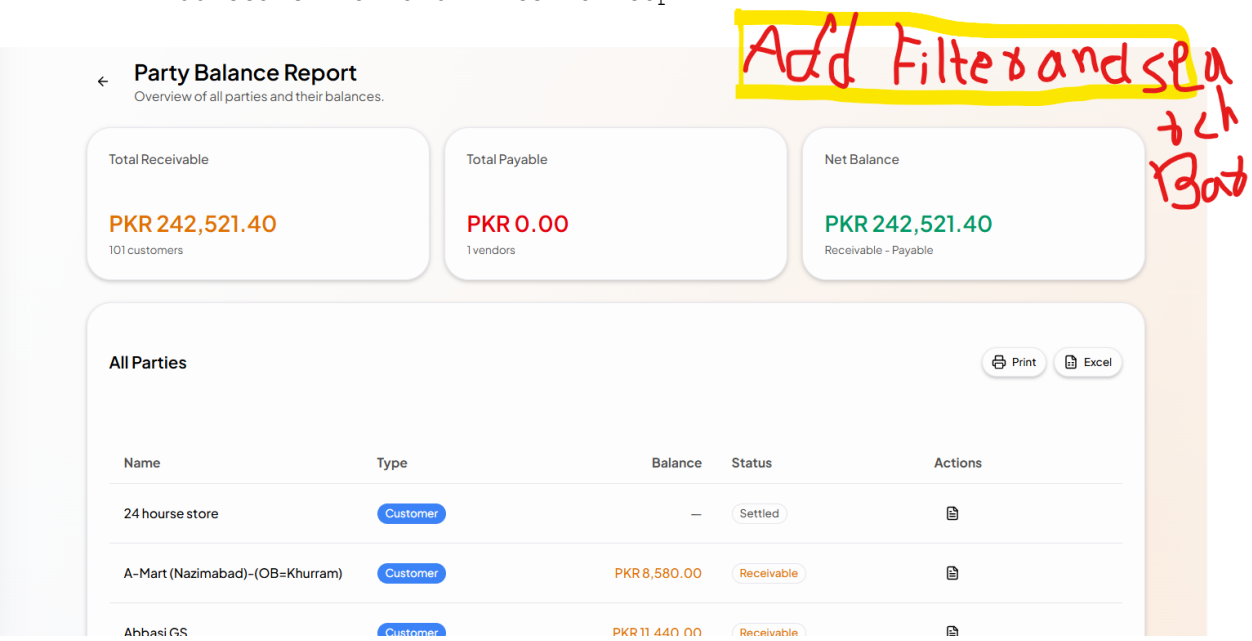
🏢 Module: Parties

```
Parties
├── Parties List
│      ├── Add Filter
│      │      ├── Total Receivable
│      │      ├── Total Payable
```

```
│       │       └── All Parties
```



```
│
└── Party Report
      └── Add Search Bar and filter on top
```



🎁 Module: Stock Management

```
Stock Management
├── Inventory
│      └── Add Search Bar
│
└── Inventory Reports
      ├── Add Filter
```

```
│       ├── Daily
│       ├── Weekly
│       ├── Monthly
│       ├── Yearly
│       └── Date-wise
└── Add Search Bar
```

🛒 Module: POS

```
POS
├── New Sale
│       ├── Replace Tax Field
│       │       ├── Supplier Bill
│       │       ├── Cash Bill
│       │       └── Credit Bill
│       │      → Apply on all items
│
│       ├── Default Customer Handling
│       │       └── If no customer selected → Auto assign "Walking Customer"
│
│       ├── Add Columns in Invoice
│       │       ├── Unit Column
│       │       ├── Discount Column
│       │       └── Rate After Discount
│       │
│       │      → Final Columns Structure:
│       │      (S.No - Item - Qty - Unit - Discount - Rate After Discount -
Amount)
│       │
│       └── Conditional Display
│               └── Hide Discount Column if not used
│
├── Sale
│       ├── Eye Icon Functionality
│       │       ├── View Bill
│       │       ├── Download Bill
│       │       └── Print Bill
│       │
│       └── Module Cleanup
│               └── Move Gross Profit & Settings → Settings Module
│
└── Customer Payment
        ├── Add Outstanding Field
        │       └── Outstanding = Total Payment - Total Received
        ├── Add Search Bar
        │       ├── Paid Sales List
        │       └── Payment History
```

□ Module: Purchase Management

```
Purchase Management
```

```
├── Integration
│     └── Connect Purchase Module with Stock Module (Critical)
│
├── Purchases
│     └── Add Search Bar
│
├── Create Purchase
│     ├── Remove Tax Field
│     ├── Replace Vendor Dropdown → Search Bar
│     ├── Replace Item Dropdown → Search Bar
│     ├── Dynamic Cost Price
│     │     └── Allow editing during runtime
│     └── Data Integrity Rule
│           └── Do not allow deletion of finalized purchase bills
│
├── Vendor Payments
│     ├── Fix Calculation Logic
│     │     └── Outstanding = Total Payment - Total Paid
│     ├── Add Outstanding Field
│     └── Replace Dropdown → Search Bar
│
└── Purchase Report
      └── Add Search Bar
```

💰 Module: Account Management

```
Account Management
├── Integration
│     └── Connect with POS & Purchase Modules (Critical)
│
├── Overview
│     └── Add Filter (Daily, Weekly, Monthly, Yearly, Date-wise)
│
├── Ledgers
│     ├── Add Search Bar
│     └── Add Filters
│
├── Customer Ledgers
│     ├── Add Search Bar
│     └── Add Filters
│
├── Vendor Ledgers
│     ├── Add Search Bar
│     └── Add Filters
│
└── Reports
      ├── Add Search Bar
      └── Add Filters
```

🔄 Module: Return & Refund

```
Return & Refund
├── Integration (Critical)
│      └── Connect with:
│            ├── POS
│            ├── Stock
│            ├── Accounts
│            └── Purchase Management
│
├── Sale Return
│      ├── Add Search Bar
│      ├── Add Filters
│      └── Form Changes
│            ├── Replace Dropdown → Search Bar
│            └── Remove Tax Field
│
├── Purchase Return
│      ├── Add Search Bar
│      ├── Add Filters
│      └── Form Changes
│            ├── Replace Dropdown → Search Bar
│            └── Remove Tax Field
│
└── Return Reports
       ├── Add Search Bar
       └── Add Filters
```

⚙□ Module: Settings

```
Settings
├── Gross Profit
│      └── Fix Typo
│            └── "Toal Cost" → "Total Cost"
│
└── User Management
       └── Move User Management into Settings Module
```

🚨 Critical Issues Summary

```
├── Purchase not connected with Stock
├── Accounts not integrated with POS & Purchase
├── Return module not connected with core modules
├── Incorrect Outstanding calculation logic
└── Deletion of finalized purchase bills (Data Risk)
```
